Christmas Pet Safety Tips

🎁 Keep gifts and stocking stuffers out of reach

Many holiday treats, toys, batteries, and small items can be dangerous if chewed or swallowed.

🍫 Watch holiday sweets

Chocolate, candy, baked goods, and sugar-free treats containing xylitol can be toxic to pets.

🌿 Be cautious with holiday plants

Mistletoe, holly, and some lilies can cause illness if eaten.

🎀 Avoid ribbons, bows, and tinsel

These festive decorations can cause serious intestinal blockages if swallowed.

💡 Protect electrical cords

Holiday lights and extension cords can be tempting chew toys that may lead to shocks or burns.

🚪 Manage holiday visitors

Frequent guests and open doors increase the risk of anxious pets escaping. Consider baby gates, crates, or a quiet room.

🐾 Maintain your pet's routine

Holiday excitement can be stressful. Regular meals, walks, playtime, and quiet breaks help pets feel secure.
